ASSISTANT PROFESSOR EXAM — 2024

Economics • Second Paper

UNIT 8

Indian Economy

भारतीय अर्थव्यवस्था

1. Salient Features & Sectoral Composition of Indian Economy; Demographic Features & Population Policy

2. Indian Agriculture — Characteristics, Production & Productivity, Emerging Issues, Price Policy, Natural Farming, Finance & Marketing

3. Industrial Growth & Finance; MSME; Industrial Policies since Independence; Atma Nirbhar Bharat, Make in India, Start-ups & Unicorns; Infrastructure & PM Gati Shakti

4. Poverty, Unemployment, Migration; Women Empowerment; Role & Importance of Rural Economy

5. Recent Developments in Indian Foreign Trade; Emergence of India as a Global Economic Power

Hinglish detailed notes • 16 diagrams • latest data: Economic Survey 2025-26, PLFS 2025, FY26 estimates

SECTION 1 — Salient Features, Sectoral Composition & Demography / प्रमुख विशेषताएँ

1.1 Salient Features of Indian Economy / भारतीय अर्थव्यवस्था की प्रमुख विशेषताएँ

India ek **developing, mixed economy** hai jo ab duniya ki **4th largest economy** (nominal, ~$4 trillion; Japan ko 2025 me overtake kiya) aur **3rd largest PPP** me hai. FY 2025-26 me real GDP growth **7.4–7.7%** (1st/2nd Advance Estimates) — fastest-growing major economy. Per capita income ne **$3,000** ka psychological mark cross kiya, lekin India ab bhi lower-middle-income country hai. Features yaad rakhne layak:

- **Mixed economy:** public + private coexistence; 1991 ke baad market-oriented, state ab "facilitator".
- **Dualism:** modern services/industry ke saath traditional agriculture — formal vs informal (informal employment ~85-90%).
- **Agriculture-dependent employment:** GVA me ~16% lekin workforce ka ~45% — structural transformation incomplete (Lewis transition adhura).
- **Demographic dividend:** median age ~29 saal; working-age share rising (~2055 tak window).
- **Service-led growth:** services GVA ~55% — "tertiarisation without industrialisation" ki debate.
- **High savings/investment:** GFCF ~30% of GDP (FY26); PFCE ~61% — consumption-driven economy.
- **Planning to market:** Planning Commission (1950) → NITI Aayog (2015); federal "competitive + cooperative federalism".
- **Persistent challenges:** regional disparity, jobless growth ki bahas, low female LFPR, income inequality (top 10% ~57% income — Chancel-Piketty).

1.2 Sectoral Composition / क्षेत्रीय संरचना

Sectoral composition = GVA aur employment me primary (agri + mining), secondary (manufacturing, construction, utilities) aur tertiary (services) sectors ke shares. India ki khaas baat — **GVA structure services-heavy** hai lekin **employment structure agriculture-heavy** — isi mismatch ko "structural transformation problem" kehte hain.

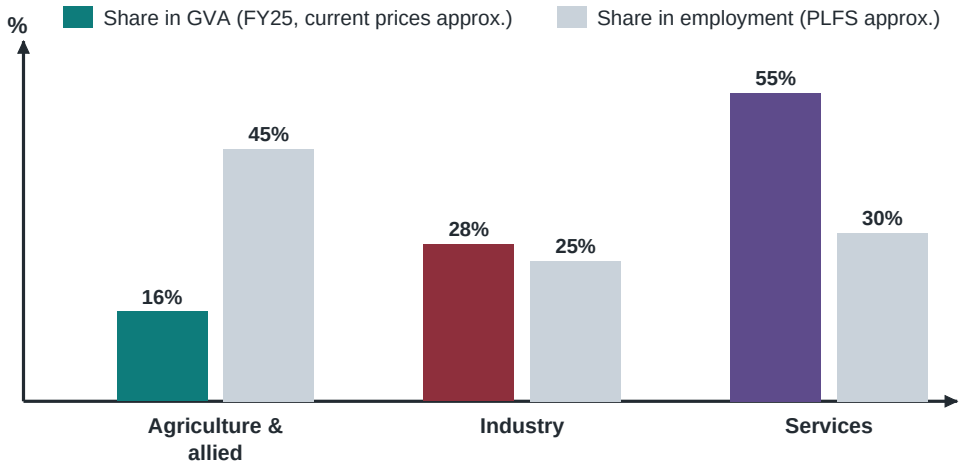

Fig 1: GVA share vs employment share — structural mismatch

Sector	GVA share (approx., current prices)	Trend 1950-51 → ab	FY26 growth
Agriculture & allied	~16-18%	~52% → ~16% (girta share)	3.1% (Survey) / 3.2% (2nd AE primary)
Industry (incl. construction)	~27-28%	~14% → ~28% (stagnant share)	6.2% (mfg 7.0-8.4% H1)
Services	~54-55%	~33% → ~55% (rising)	9.1% — growth ka engine

EXAM TIP — Kuznets/Clark-Fisher pattern
Development ke saath share: primary girta hai, secondary phir tertiary badhta hai. India ne **secondary stage ko "skip"** karke direct services-led growth dikhayi — premature deindustrialisation (Dani Rodrik) ki discussion exam me quote karein. Manufacturing share ~17-18% par stuck; target 25% (Make in India).

1.3 Demographic Features / जननांकीय वशिषताएँ

India 2023 se **world ka most populous country** hai (~**1.46 billion**, 2025 UN est.). Census 2011 last census tha (agla census 2027 me, caste enumeration ke saath). Key demographic facts (Census 2011 + latest surveys):

Indicator	Value	Comment
Population growth rate	2011: 17.7% decadal; ab ~0.8%/yr	Growth slow ho rahi hai
TFR (NFHS-5, 2019-21)	2.0	Replacement level (2.1) ke neeche
Sex ratio	943 (2011); NFHS-5: 1020	Improvement; child sex ratio concern
Literacy	74% (2011); ab ~80%+	Male-female gap ghat raha
Median age	~29 years	China ~40, Japan ~49 — young India
Life expectancy	~70-71 years	1951 me ~32 thi
Urbanisation	31.2% (2011); ab ~36-37%	2047 tak ~50% expected
Demographic dividend window	~2018-2055	Working-age (15-59) share peak pe

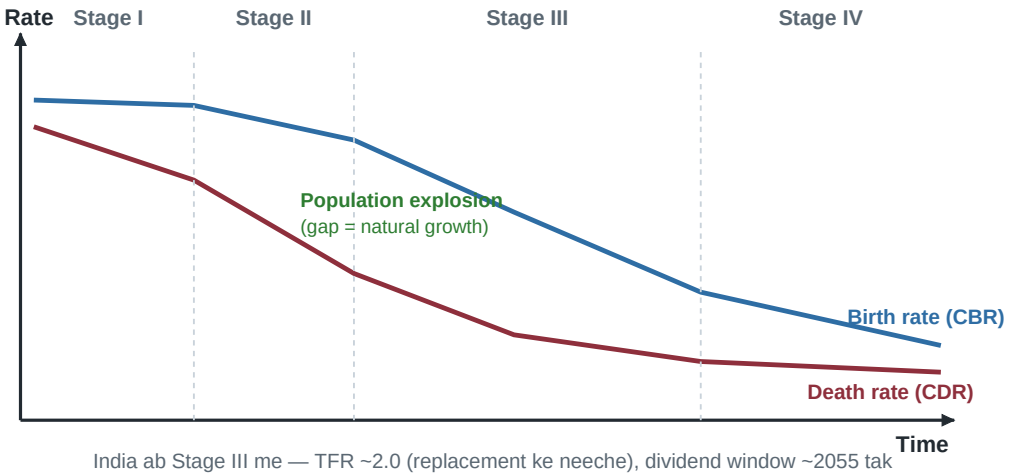

Fig 2: Demographic transition — India Stage III me (low death rate, falling birth rate)

Demographic dividend (David Bloom): jab working-age population ka share dependents se zyada tezi se badhta hai to growth bonus milta hai — lekin yeh **conditional** hai: education, health, skills aur jobs chahiye, warna "demographic disaster". **Youth NEET** (not in employment, education, training) ~25% — policy challenge.

Population Policy / जनसंख्या नीति

- **1952:** India duniya ka pehla desh jisne official **Family Planning Programme** shuru kiya.
- **1976 (Emergency era) policy:** coercive sterilisation ki wajah se backlash; 1977 me voluntary "Family Welfare" approach.
- **National Population Policy 2000:** immediate goal — contraception/health infrastructure; medium-term — TFR 2.1 by 2010; long-term — population stabilisation by 2045. **NPP 2000 ab bhi operative policy hai.**
- Institutions: National Population Commission (2000); Jansankhya Sthirata Kosh (2003).
- Ab focus **quantity se quality** par: NFHS-5 ke baad TFR replacement ke neeche — naya challenge hoga **ageing** (2050 tak 60+ share ~20%).

KEY TERMS / परिभाषाएँ

Demographic dividend	Working-age share badhne se per-capita growth bonus (Bloom & Williamson)
Dependency ratio	(0-14 + 60+) / working-age × 100 — India me ~47, girta hua
NEET	Youth not in employment, education or training (~25%)
Replacement TFR	2.1 — jis par population long run me stable hoti hai
Demographic transition	High birth-death → falling death → falling birth → low-low stages

SECTION 2 — Indian Agriculture / भारतीय कृषि

2.1 Important Characteristics / प्रमुख विशेषताएँ

- **Livelihood base:** ~45% workforce, ~16-18% GVA; rural households ki main income source.
- **Small & marginal holdings:** ~86% holdings 2 hectare se kam (Agri Census 2015-16); average size ~1.08 ha — fragmentation se mechanisation mushkil.
- **Monsoon dependence:** ~50-55% net sown area ab bhi rainfed — "gamble on monsoon".
- **Low productivity:** per-hectare yields world averages se kam (rice yield China ke ~60%).
- **Disguised unemployment** aur underemployment widespread; allied sector (livestock, fisheries) ka share GVA me badh raha hai (agri-GVA ka ~45%+).
- **Diversification:** horticulture production (~365 MT) ab foodgrains se zyada; dairy me India No. 1.

2.2 Major Production & Productivity / उत्पादन एवं उत्पादकता

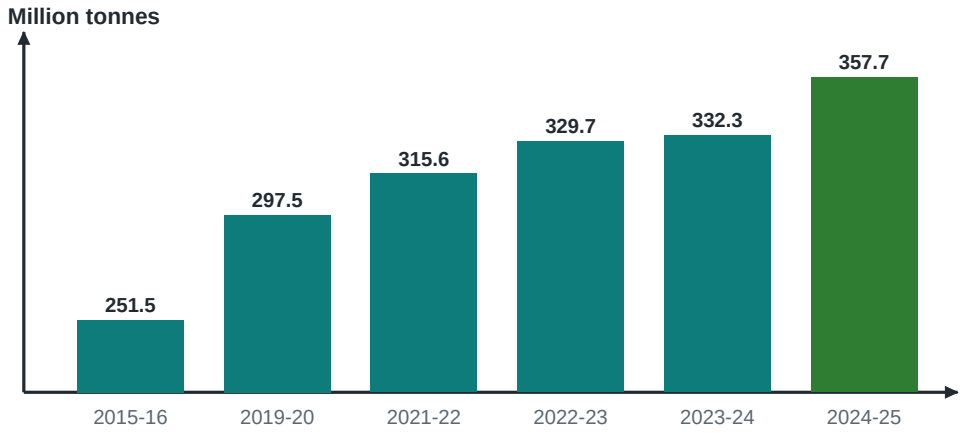

Fig 3: Foodgrain production trend — record 357.73 MT (2024-25)

Crop (2024-25 Final Est.)	Production	Global rank
Rice	150.18 MT (record)	2nd (1st exporter)
Wheat	117.94 MT (record)	2nd
Pulses	25.68 MT	1st producer & consumer
Coarse cereals / Shree Anna	~63.9 MT	Millets push — IYM 2023
Oilseeds	42.98 MT	Bada importer bhi (edible oil ~57% import)
Milk	~240 MT	1st (world ka ~24%)
Sugarcane, cotton, jute	Sugar 2nd, cotton 2nd, jute 1st	Cash crops

Emerging issues — Institutional & Technological / उभरते मुद्दे

Institutional: land leasing & tenancy reforms (Model Land Leasing Act 2016), fragmented holdings, FPO consolidation (10,000 FPO scheme), agri-credit access, APMC reform politics (2020 farm laws repeal 2021). **Technological:** precision agriculture, drones (Namo Drone Didi), AgriStack & Digital Agriculture Mission (2024), GM debate (Bt cotton only approved; GM mustard pending), climate-resilient seeds, micro-irrigation (Per Drop More Crop), Kisan e-mitra AI. **Climate change** — yield volatility, heat stress on wheat.

2.3 Agricultural Price Policy / कृषि कीमत नीति

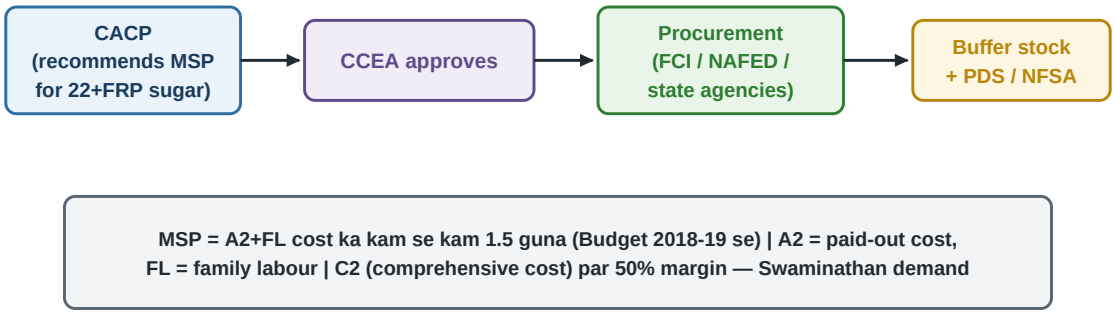

Fig: Agricultural Price Policy ka institutional flow

Fig 4: MSP — CACP se PDS tak institutional flow

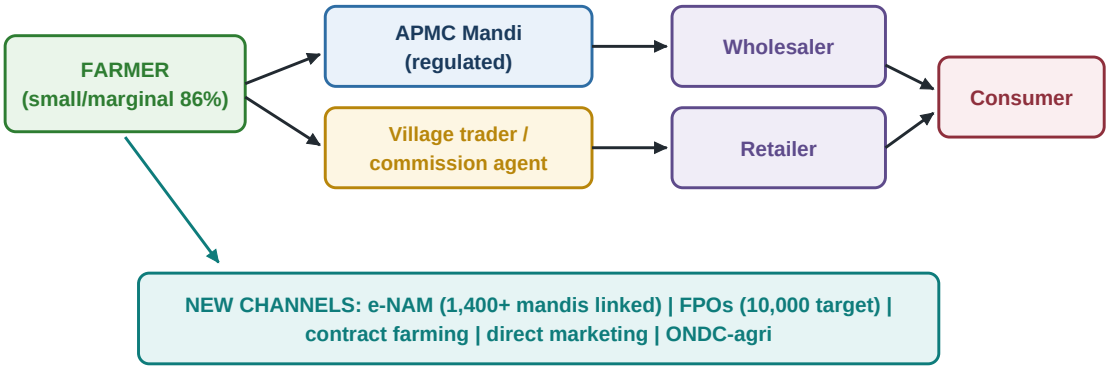

- **Objectives:** producers ko remunerative price + consumers ko affordable food + price stability.
- **Instruments:** MSP (23 crops: 7 cereals, 5 pulses, 7 oilseeds, 4 commercial) + FRP (sugarcane), buffer stocks, OMSS, PDS/NFSA (81+ crore beneficiaries, PMGKAY free grain), tariff policy.
- **MSP formula:** Budget 2018-19 se **cost A2+FL ka 1.5 guna**; Swaminathan Commission ne **C2 + 50%** kaha tha — farmer movements ki demand "legal MSP guarantee".
- **Criticism:** procurement rice-wheat centric (Punjab-Haryana bias), cropping pattern distortion, water-intensive paddy, fiscal burden; PM-AASHA (price deficiency payment) jaise alternatives.

2.4 Natural Farming / प्राकृतिक खेती

Natural farming = chemical-free, agro-ecology based farming jisme on-farm inputs (jeevamrit, beejamrit, mulching, desi cow based) use hote hain — Subhash Palekar ki **ZBNF** (Zero Budget Natural Farming) se popular. Government ne **National Mission on Natural Farming (NMNF, 2023-24)** standalone scheme banayi — target ~1 crore farmers, 7.5 lakh ha; Gujarat & Andhra Pradesh leading states; Economic Survey bhi input-cost reduction aur soil health ke liye iski wakalat karta hai. **Critique:** yield-penalty ki studies, scientific validation (ICAR trials) jaari.

2.5 Agriculture Finance & Marketing / कृषि वित्त एवं विपणन

- **Finance evolution:** moneylender dominance → cooperative credit (1904 Act) → bank nationalisation (1969) → RRBs (1975) → **NABARD (1982 — apex)** → KCC (1998) → PM-KISAN (2019, Rs 6,000/yr DBT).
- **Sources:** institutional (~75-80%): commercial banks (largest), cooperatives, RRBs; non-institutional: mahajan/arhatiya (ab bhi ~20-25%).
- **Ground Level Credit** target FY25 ~Rs 27.5 lakh crore; interest subvention — short-term loan effectively 4% (prompt repayment).
- **Insurance:** PMFBY (2016) — premium farmer share 2% kharif / 1.5% rabi / 5% commercial.
- **Marketing problems:** long chains, distress sale, lack of grading/warehousing, APMC monopoly, market fragmentation.
- **Reforms:** e-NAM (2016; 1,400+ mandis), Model APMC Act 2003 / APLM Act 2017, GrAMs, Agriculture Infrastructure Fund (Rs 1 lakh cr), eNWR (negotiable warehouse receipts), FPO promotion, ODOP-agri.

Lambi chain = farmer ko consumer rupee ka chhota hissa; reforms chain ko chhota karte hain

Fig 5: Marketing chain — traditional vs new channels

KEY TERMS / प्रमुख शब्द	
CACP	Commission for Agricultural Costs & Prices — MSP recommend karta hai
A2+FL / C2	A2 = paid-out costs; FL = family labour; C2 = comprehensive (rent+interest incl.)
e-NAM	Pan-India electronic trading portal (2016), unified market
ZBNF / NMNF	Zero-budget natural farming; National Mission on Natural Farming
KCC	Kisan Credit Card — short-term crop loan instrument
PMFBY	Pradhan Mantri Fasal Bima Yojana — crop insurance

SECTION 3 — Industrial Growth, MSME, Policies, Start-ups & Infrastructure

3.1 Industrial Growth in India / औद्योगिक संवृद्धि

Industrial GVA share ~27-28%; manufacturing ~17-18% (target 25%). FY26 me industrial GVA growth **6.2%**, manufacturing H1 me **8.4%** — capex cycle aur PLI se momentum. **IIP** (base 2011-12) industrial output ka monthly index hai; core sector (8 industries, weight ~40% of IIP) — coal, crude, natural gas, refinery, fertiliser, steel, cement, electricity. Phases yaad rakhein: 1951-65 heavy-industry push (Mahalanobis), 1965-80 deceleration, 1980s recovery, 1991+ liberalisation, 2000s boom, 2010s twin balance-sheet problem, ab PLI-driven revival.

3.2 Industrial Policies since Independence / स्वतंत्रता के बाद औद्योगिक नीतियाँ

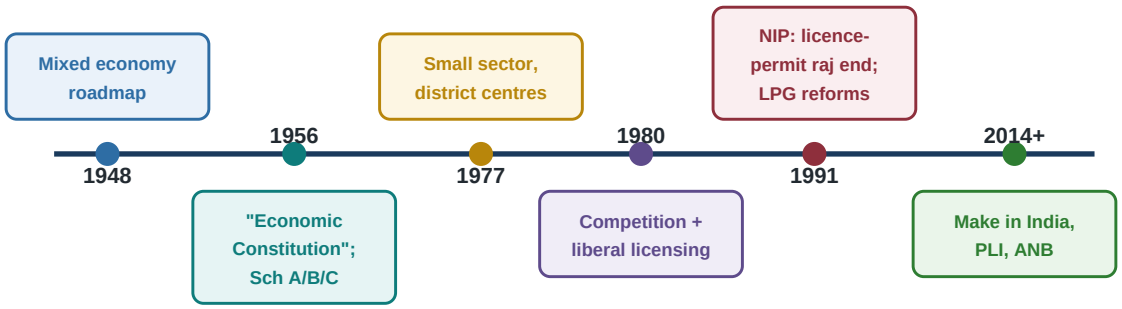

Fig: Industrial Policy Resolutions/Statements — 1948 se PLI tak

Fig 6: Industrial policy evolution — 1948 se Make in India/PLI tak

Policy	Core idea
IPR 1948	Mixed economy ka blueprint; arms/atomic/rail state monopoly
IPR 1956	"Economic Constitution of India"; Schedule A (17 state), B (12 joint), C (rest); socialist pattern
IPS 1977	Janata govt — small & cottage sector, District Industries Centres
IPS 1980	Competition, capacity regularisation, "industrial sickness" focus
NIP 1991	Delicensing (sirf 18 industries me licence), MRTP dilution, public sector pruning (now 2-3 reserved), FDI welcome
2014+	Make in India, Startup India, PLI (2020, 14 sectors), Atmanirbhar Bharat, NaBFID, NLP 2022

3.3 Industrial Finance / औद्योगिक वित्त

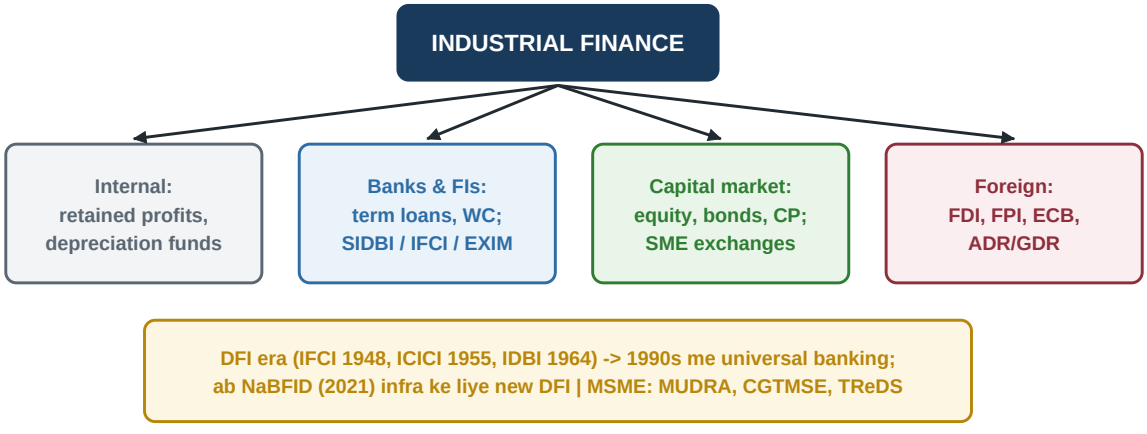

Fig 7: Industrial finance ke sources — internal se foreign tak

DFI era: IFCI (1948), ICICI (1955), IDBI (1964), SIDBI (1990 — MSME apex), EXIM Bank (1982). 1990s ke baad DFIs universal banks bane (ICICI, IDBI reverse-merged). Infrastructure financing gap ke liye **NaBFID (2021)** naya DFI. Capital market: SEBI (1992), SME exchanges (BSE SME, NSE Emerge). MSME ke liye: **MUDRA** (Shishu/Kishore/Tarun; ab Tarun Plus Rs 20 lakh), **CGTMSE** credit guarantee, **TReDS** (receivables discounting), 59-minute loans.

3.4 MSME Sector / एम.एस.एम.ई. क्षेत्र

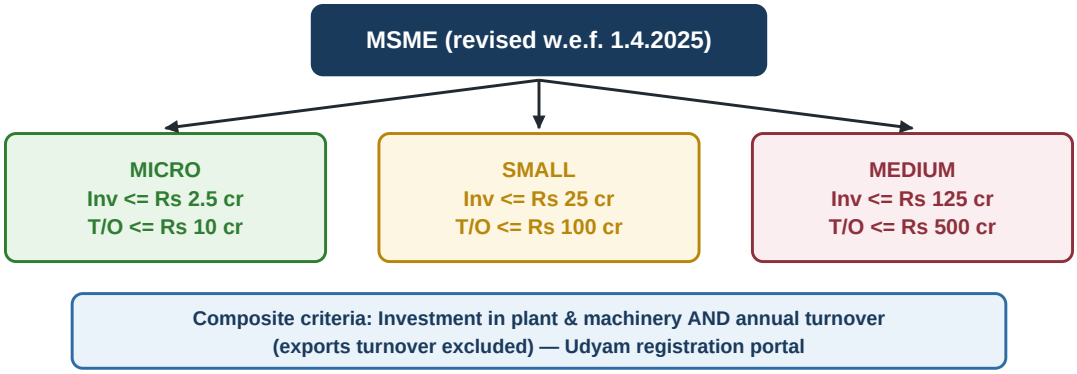

Fig 8: MSME revised classification (Budget 2025, w.e.f. 1.4.2025)

- MSME = GDP ka ~30%, manufacturing output ka ~35-40%, exports ka ~45%, **23+ crore employment** — agriculture ke baad sabse bada employer.
- **Udyam portal** registration (2020); Udyam Assist for informal micro units.
- Schemes: PMEGP, CGTMSE (guarantee cover badha ke Rs 10 cr — Budget 2025), PM Vishwakarma (2023, traditional artisans), RAMP, SFURTI clusters, public procurement 25% MSE mandate.
- Problems: credit gap (~Rs 25-30 lakh cr), delayed payments (Samadhaan portal, 45-day rule Sec 43B(h)), low tech adoption, formalisation.

3.5 Major Industrial Production / प्रमुख औद्योगिक उत्पादन

Industry	Exam-worthy facts
Steel	2nd largest producer (production ~145+ MT); NSP 2017 target 300 MT by 2030
Cement	2nd largest producer
Automobiles	3rd largest market; 2-wheeler & tractor me top; EV push (FAME-II, PM E-DRIVE)
Pharma	"Pharmacy of the world" — volume me 3rd; generics ka ~20% global supply
Electronics	Mobile mfg hub — electronics exports ~$48 bn FY26 (fastest riser); semiconductor mission (ISM)
Textiles	Largest cotton producer; PM MITRA parks; 2nd largest textile exporter
Petroleum refining	4th largest refining capacity; petro-products bade export item

3.6 Atma Nirbhar Bharat, Make in India, Start-ups & Unicorns

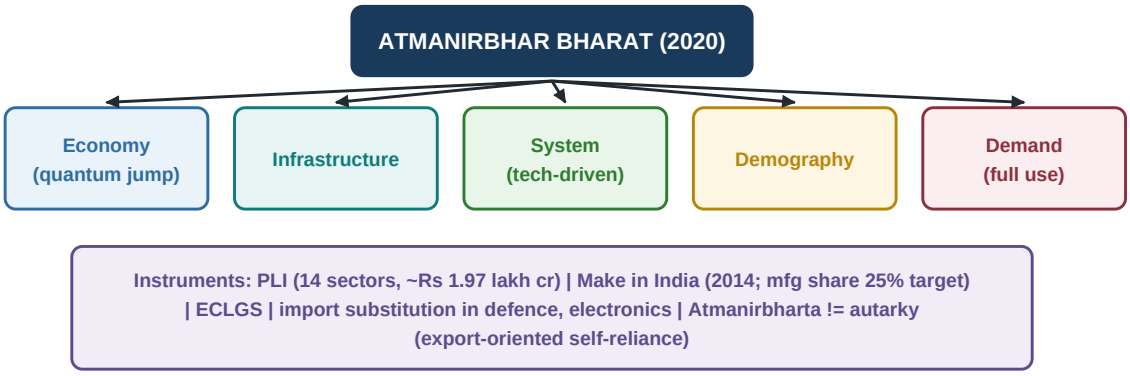

Fig 9: Atmanirbhar Bharat ke 5 pillars aur instruments

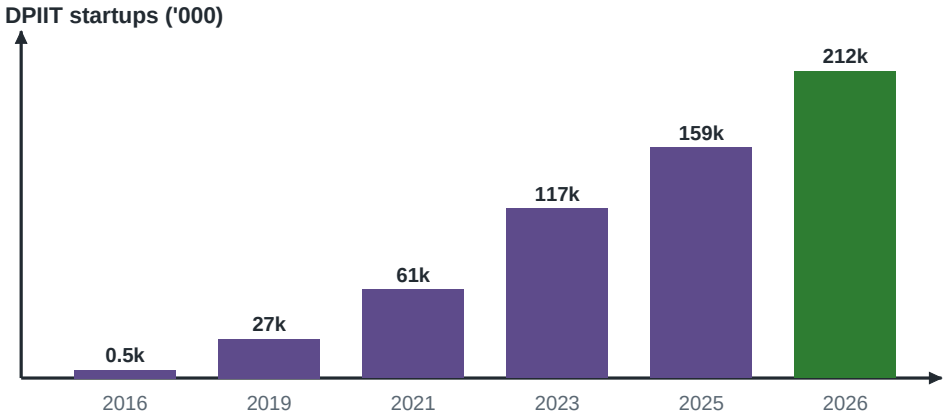

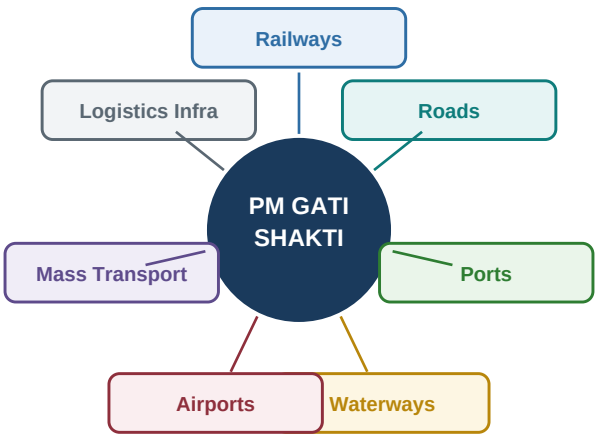

Fig 10: Start-up India — 500 se 2.12 lakh+ DPIIT startups tak

- **Make in India (2014):** manufacturing share 25% ka target, FDI liberalisation, ease of doing business; **PLI (2020):** 14 sectors, ~Rs 1.97 lakh crore — mobile, pharma, auto, semiconductors, white goods.
- **Startup India (2016):** DPIIT-recognised startups **2,12,283 (31 Jan 2026)**; 1 lakh+ me at least one woman director; 3rd largest ecosystem; tax holiday (80-IAC), Fund of Funds (SIDBI), Seed Fund, Credit Guarantee.
- **Unicorns:** ~120-125 cumulative ($1 bn+ valuation; 2026 me Juspay first new entrant) — fintech, SaaS, e-commerce dominate; Bengaluru "startup capital".
- **Atmanirbhar Bharat (2020):** 5 pillars; ~Rs 20 lakh crore package; self-reliance ≠ autarky — "import substitution + export competitiveness" dono.

3.7 Infrastructure Development & PM Gati Shakti

7 engines (NMP 2021) + National Logistics Policy 2022 — logistics cost GDP ke ~8-9% tak lana

Fig 11: PM Gati Shakti NMP (Oct 2021) — multimodal connectivity ke 7 engines

- **NIP** (National Infrastructure Pipeline): Rs 111 lakh crore (2020-25) projects; **NMP** (National Monetisation Pipeline): Rs 6 lakh crore brownfield assets.
- **PM Gati Shakti (2021):** GIS-based National Master Plan — 44+ ministries ke data layers integrate; silos todna, project planning time ghatana.
- **National Logistics Policy 2022:** logistics cost ko GDP ke ~13-14% se single digit (~8-9%) par lana; LEADS index states ke liye.
- Major programmes: Bharatmala (roads), Sagarmala (ports), UDAN (aviation), Dedicated Freight Corridors, Vande Bharat, BharatNet, Smart Cities, Jal Jeevan Mission.
- Capex push: Union Budget capex ~Rs 11+ lakh crore — crowding-in private investment ki strategy.

EXAM TIP — Industry section ke "evolution" answers

Industrial policy ka answer hamesha **3-phase arc** me likhein: (1) 1948-1980 — state-led, licensing, PSU dominance (Mahalanobis logic); (2) 1991 — LPG: delicensing, dereservation, FDI, MRTP relaxation (BoP crisis trigger); (3) 2014+ — incentive-led manufacturing: Make in India, PLI, Atmanirbhar, Gati Shakti. Har phase ka **trigger + instrument + outcome** batayein. MSME ke liye revised 1.4.2025 limits zaroor quote karein — yeh naya data hai, examiner ko impress karega.

KEY TERMS / परिभाषाएँ

PLI	Production Linked Incentive (2020) — 14 sectors, ~Rs 1.97 lakh cr; incremental sales/production par incentive
NaBFID	National Bank for Financing Infrastructure & Development (2021) — naya infra DFI
NMP	National Monetisation Pipeline — Rs 6 lakh cr brownfield asset monetisation
NLP 2022	National Logistics Policy — logistics cost single-digit (~8-9% GDP) target; ULIP platform
Udyam	MSME ka online registration portal (2020) — self-declaration based
TReDS	Trade Receivables Discounting System — MSME receivables ki online discounting

SECTION 4 — Poverty, Unemployment, Migration, Women Empowerment & Rural Economy

4.1 Poverty — Concept & Status / गरीबी की अवधारणा व स्थिति

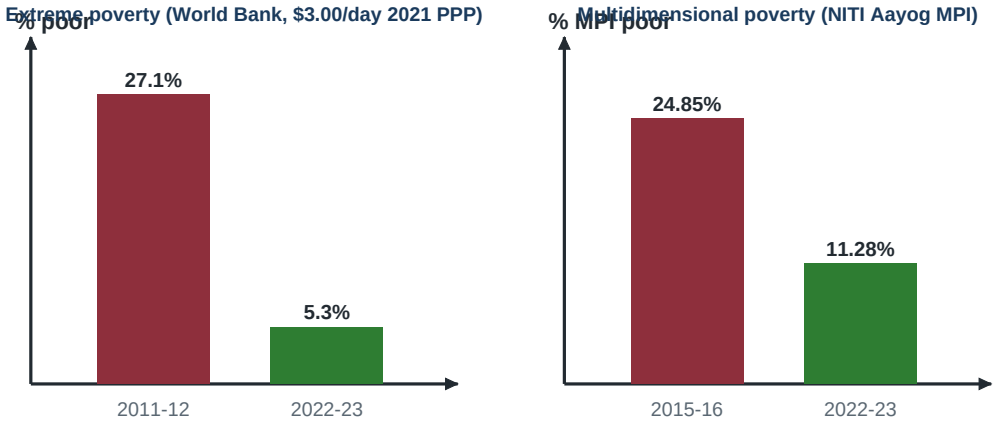

Concept: absolute poverty (minimum consumption basket se neeche — poverty line) vs relative poverty (inequality-based). Ab approach **multidimensional** hai — income ke saath health, education, living standards (Alkire-Foster method, NITI MPI ke 12 indicators).

Calorie-based lines se multidimensional (health+education+living standard) approach tak

Fig: Poverty measurement ki evolution

Fig 12: Poverty line committees ki evolution

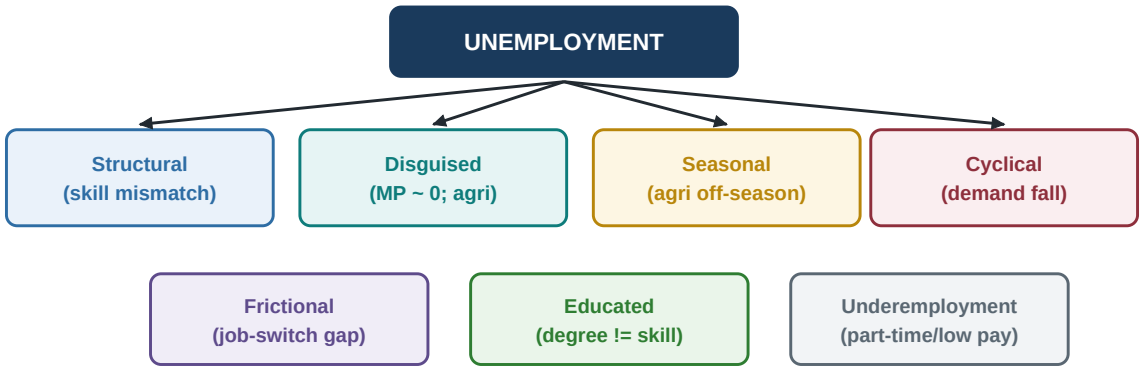

~24.8 crore log 2013-14 se 2022-23 ke beech multidimensional poverty se bahar (NITI)

Fig 13: Poverty decline — World Bank extreme poverty & NITI MPI

- **World Bank (2025 update, $3.00/day 2021 PPP):** extreme poverty 27.1% (2011-12) se girkar **5.3% (2022-23)** — ~26.9 crore log bahar; lower-middle line ($4.20/day) par ~23.9%.
- **NITI Aayog MPI:** 24.85% (2015-16) → 14.96% (2019-21) → ~11.28% (2022-23 discussion paper); **~24.8 crore** log 9 saal me multidimensional poverty se bahar.
- **HCES 2022-23/2023-24:** consumption inequality giri; rural-urban MPCE gap narrow hua — poverty debate me naya data.
- Causes: low asset base, landlessness, informal jobs, health shocks; Programmes: MGNREGA (100 din legal guarantee), NFSA/PMGKAY, PM Awas, Ujjwala, Ayushman Bharat, DAY-NRLM SHGs.

4.2 Unemployment — Concept & Status / बेरोजगारी

India me dominant: disguised (rural) + educated + underemployment; open UR kam dikhta hai

Fig 14: Unemployment ke types — India me disguised + educated dominant

PLFS indicator (15+ yrs, usual status)	Latest value	Comment
Unemployment Rate (UR)	3.1% (PLFS 2025, Jan-Dec)	2017-18 me 6.0% tha — gir raha
Youth UR (15-29)	9.9% (2025)	Educated youth me zyada; urban youth 13.6%
LFPR	~59-61%	Female LFPR ~42% — sharp rise (23% in 2017-18)
WPR	~58-59%	Rural female WPR me bada improvement
CWS UR (monthly)	~5% range (2026 bulletins)	Short-term measure, thoda higher

Measurement concepts (NSO) — exam favourite

Usual Status (PS+SS) — 365 din reference; **Current Weekly Status (CWS)** — 7 din; **Current Daily Status** — person-days. PLFS (2017-18 se) ne NSSO ke 5-yearly EUS surveys ko replace kiya; 2025 se monthly bulletins (rural+urban). **Jobless growth debate:** high GDP growth lekin employment elasticity low (~0.2); informal sector ~90% workers; e-Shram portal unorganised workers ke liye.

4.3 Migration / प्रवासन

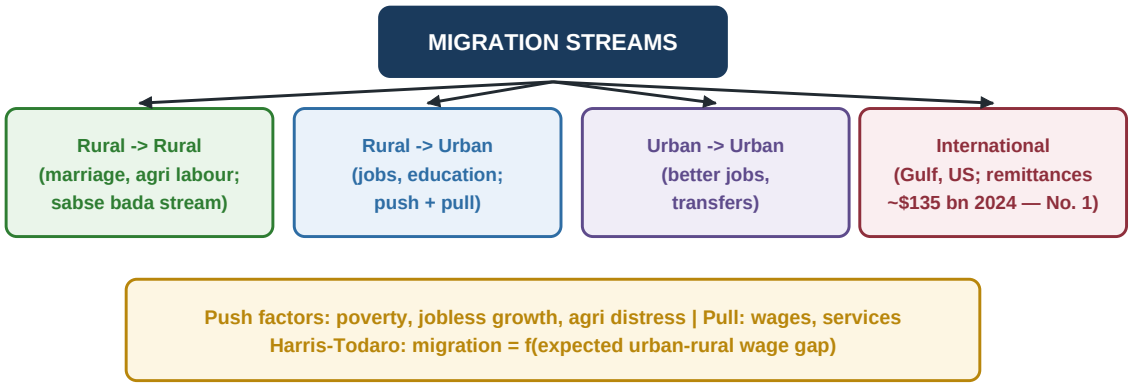

Fig 15: Migration streams — rural-rural sabse bada; remittances me India No. 1

Census 2011: ~45.6 crore internal migrants (~37% population); marriage (females) aur work (males) main reasons. **Covid-19 reverse migration** ne migrant vulnerability dikhayi — response: One Nation One Ration Card (ONORC), e-Shram, Affordable Rental Housing. **International:** ~3.5 crore diaspora; remittances **~$135 bn (2024) — world No. 1** — BoP ke liye stable lifeline. Theories: Lewis (surplus labour transfer), Harris-Todaro (expected wage gap), push-pull (Lee).

4.4 Women Empowerment in India / महिला सशक्तिकरण

- **Economic:** female LFPR ~42% (PLFS) — improving but male (~78%) se bahut kam; gender wage gap; "missing women" (Amartya Sen).
- Schemes: Beti Bachao Beti Padhao, DAY-NRLM (~10 crore SHG women — "Lakhpati Didi" target 3 crore), MUDRA (~68-70% women borrowers), Stand-Up India, PM Matru Vandana, Namo Drone Didi, Mahila Samman Savings Certificate.
- **Political:** PRIs me 33% (kai states 50%) reservation; **Nari Shakti Vandan Adhiniyam 2023** — Lok Sabha/assemblies me 33% (delimitation ke baad lagu).
- **Social indicators:** NFHS-5 — sex ratio 1020, female literacy ~72%, financial inclusion (Jan Dhan ~55% accounts women ke).
- Approach shift: "welfare" se **"women-led development"** (G-20 Delhi Declaration theme).

4.5 Role & Importance of Rural Economy / ग्रामीण अर्थव्यवस्था

- ~64% population rural; rural economy = agriculture + non-farm (manufacturing, construction, services — ab rural income ka ~2/3).
- Demand base: FMCG, two-wheeler, tractor sales ke liye rural demand crucial; FY26 me favourable monsoon se rural consumption revival.
- Institutions: PRIs (73rd Amendment), cooperatives (97th Amendment; Ministry of Cooperation 2021 — PACS computerisation), SHG-bank linkage (NABARD).
- Programmes: MGNREGA, PMGSY (roads), PM Awas-Gramin, Jal Jeevan, SVAMITVA (property cards), DDU-GKY skilling, rural haats/GrAMs.
- **Importance:** food security, labour supply, raw material, market for industry, ecological services — "Bharat" ki growth ke bina inclusive growth possible nahi.

SECTION 5 — Recent Developments in Foreign Trade; India as Global Economic Power

5.1 Recent Developments in Indian Foreign Trade / वदिशी व्यापार में नवगतविधियाँ

India trade snapshot — FY 2025-26 (exam-ready)

• Total exports (goods+services): **~$860 bn** (+4.22%); imports ~$979 bn; overall deficit ~$119 bn.

• Merchandise exports **$441.8 bn**; services exports **$418.3 bn** (surplus ~$214 bn) — services growth 7.9%.

• USA top partner (exports ~$87 bn); electronics exports ~$48 bn — fastest riser; petroleum, engineering, pharma, gems core basket.

• US tariff shock (25% + 25% Russia-oil penalty, 2025) ke bawajood record H1 exports; diversification strategy.

- **FTA wave:** India-UAE CEPA (2022), India-Australia ECTA (2022), EFTA TEPA (2024, $100 bn investment commitment), **India-UK CETA (signed July 2025)**, India-Oman CEPA, **India-EU FTA (27 Jan 2026 — sabse ambitious)**, India-New Zealand FTA (Apr 2026); US BTA negotiations jaari.
- **FTP 2023:** target $2 trillion exports by 2030 (goods+services); incentives se remission (RoDTEP, RoSCTL); districts as export hubs; e-commerce exports push; rupee trade settlement (Vostro accounts).
- Institutional: PM Gati Shakti + NLP se logistics; ECGC, EXIM Bank; SEZ reform (DESH bill proposal); GIFT-IFSC.
- **Composition shift:** petroleum + electronics + engineering ab top exports; import basket me crude, gold, electronics — China se trade deficit (~$100 bn) strategic concern.

5.2 Emergence of India as a Global Economic Power / वैश्विक आर्थिक शक्ति के रूप में उदय

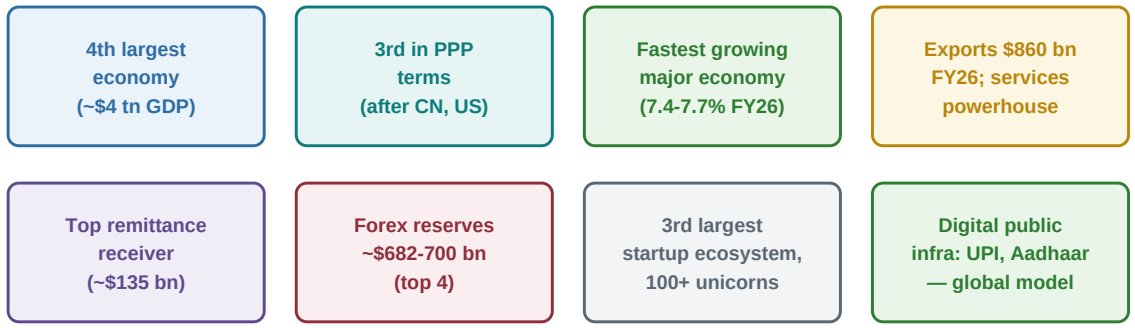

Fig: India as emerging global economic power — exam-ready indicators

Fig 16: India ke global power indicators

- **Size & speed:** 4th largest economy (nominal ~$4 tn; 2025 me Japan ko overtake), 3rd in PPP; fastest-growing major economy (7%+); 2030 tak Germany ko overtake kar 3rd banne ka projection; **Viksit Bharat @2047** — $30+ tn developed economy target.
- **Global governance:** G-20 Presidency 2023 (New Delhi Declaration consensus, African Union ki entry, DPI/green development push); Global South ki voice; QUAD, BRICS, SCO me active.
- **Digital public infrastructure:** UPI (world ki ~46-49% real-time payments), Aadhaar, ONDC — "India Stack" export ho raha hai.
- **External strength:** forex reserves ~$680-700 bn (top 4); remittances No. 1; CAD manageable (~1-2% GDP).
- **Manufacturing & supply chains:** China+1 beneficiary — iPhone assembly, semiconductors (ISM), defence exports (Rs 21,000+ cr, 85+ countries).
- **Challenges (balanced answer ke liye):** per capita income low (~$3,000), HDI rank ~130, jobs & skills gap, R&D; spend ~0.65% GDP, inequality, climate vulnerability.

EXAM TIP — "Emergence" question ka framework

Likhne ka order: (1) Size/growth metrics → (2) trade & FTA integration → (3) financial strength (forex, remittances, FDI) → (4) digital/technology leadership → (5) geopolitical role (G-20) → (6) challenges + Viksit Bharat roadmap. Data ke saath 2-3 recent FTAs aur UPI ka zikr answer ko current banata hai.

QUICK REVISION ANCHORS — एक नज़र में

Item	One-liner
GDP FY26	Real growth 7.4-7.7% (AE); nominal GDP ~Rs 357 lakh cr (~$4 tn); 4th largest
Sectoral GVA	Agri ~16% | Industry ~28% | Services ~55%; employment 45/25/30 — mismatch
Population	~1.46 bn (No. 1); TFR 2.0; median age ~29; NPP 2000 — stabilisation by 2045
Foodgrain 2024-25	Record 357.73 MT; rice 150.2, wheat 117.9, pulses 25.7 MT
MSP	A2+FL ka 1.5x; CACP recommends; 23 crops; Swaminathan = C2+50%
Natural farming	NMNF 2023-24; ZBNF (Palekar); jeevamrit-beejamrit; 1 cr farmer target
Industrial policies	1948, 1956 (Economic Constitution), 1977, 1980, 1991 (LPG), 2014+ (MII/PLI)
MSME (1.4.2025)	Micro 2.5/10, Small 25/100, Medium 125/500 (inv/turnover Rs cr); ~30% GDP
Startups	2.12 lakh+ DPIIT (Jan 2026); ~120-125 unicorns; 3rd largest ecosystem
Gati Shakti	NMP Oct 2021; 7 engines; NLP 2022 — logistics cost single digit target
